Work Experience

Entry Level Ux Designer

Upwork

Present

Jan 2023- Present

- Designed a low-fidelity prototype fintech, increasing user engagement.
- Conducted user research to inform design decisions, resulting in a 30% improvement in usability.

FREELANCER

Upwork

July 2024 to Present

Hello, am Idowu Tobi, a Product Designer specializing in MVP solutions that drive engagement and growth.

Am experience on solving UX challenges for small businesses, and crafting intuitive UIs that are easy for new users to understand.

What I Offer:

- ✦ Engaging UX/UI Designs: Creating simple, visually appealing designs that captivate users and keep them engaged.
- ✦ Interactive Prototypes: Bringing designs to life with clickable prototypes, allowing you to test and refine the user experience.
- ✦ Strategic Design Improvements: Enhancing website and design features to boost performance, usability, and overall impact.
- ✦ Responsive Design Solutions: Ensuring seamless experiences across all devices, from desktop to mobile.
- ✦ Mobile Excellence: Crafting stunning app and mobile website designs that captivate and retain users.
- ✦ Wireframing & Mockups: Creating detailed wireframes and mockups to visualize and refine website designs before development.

Solving Design Problems:

My Workflow

- 🔑 Step 1: Dive deep into user insights, crafting a journey map that illuminates their path.
- 🔑 Step 2: Architect the foundation with precision, using wireframes to shape the skeleton.
- 🔑 Step 3: Refine and iterate, testing prototypes with real users to validate design decisions.
- 🔑 Step 4: Elevate and refine, honing the design's nuances to create an intuitive and engaging experience.
- 🔑 Step 5: Launch with confidence, ensuring a flawless execution that exceeds user expectations.
